

## **The Winstedt School Receives EduTrust Re-Certification**

In continued validation of the quality of education that The Winstedt School (TWS) provides to children who think and learn differently, we are pleased to announce that we have again successfully obtained the 1-year EduTrust Provisional Certification (23 October 2018 to 22 October 2019).

The EduTrust Certification (Edutrust) is a voluntary quality assurance scheme managed by the Committee for Private Education (CPE) in Singapore. This re-certification is another testament to our ongoing commitment to equity in education and the high standards of our operations and academic delivery.

“It is especially heartening in our 10th year of operations to be recognised for our efforts with this certification,” said Sharon Solomon, Founder and CEO of The Winstedt School. “The School Management Team would like to thank all who have contributed to this additional achievement. Without the creativity and dedication of our team, as well as the support from our families and partners, this additional certification would not have been possible.”

### **About The Winstedt School**

The Winstedt School is an independent international school, from Junior to Senior years, which believes every child should be taught in the way he or she learns best. Our internationally-recognised British curriculum, 15:2 student to teacher ratio, art-infused lessons and integrated support team of specialists create a successful learning experience that is personalised and engaging for every student. TWS recently moved to a larger facility in order to meet the growing demand for an educational environment that empowers students who think and learn differently.
